

# SEASAP

Pasture & crop

SEASAP is an organic seaweed (Kelp) extract derived from versatile and nutritional Red, Brown & Green Marine Algae (seaweed). It is a concentrate and mixed with water intended to be watered-in or sprayed on the foliage. The liquid algae fertilizer is fast-acting and should be part of a regular feeding program. Can be used in organic farming practices as it is fully certified for use in Australia.

## BENEFITS:

1. Strengthens the **root** system and promotes absorption of all nutrients
2. Assists drought resistance through **root** development
3. Improves the immunity and resistance of the plants
4. Increases Photosynthesis rapidly improves flowering and intensifies the colours, reduces weathering of young flowers and fruits.
5. Enhances Seed Germination and Vigour
6. Strengthens the plant **root** and shoot system

## APPLICATION RATES:

For all kinds of pastures and crops 2-4 litres of SEASAP per hectare and spray or dilute 50ml of SEASAP in 10Litres of water and apply as foliar spray.

For fruit trees and other annuals dilute 10ml of SEASAP in 100ml of water and apply as **root** treatment.

For seed treatment dilute 10ml of SEASAP in 10Litres of water and soak the seeds overnight

**Shake well before use**

## Nutrients':

|                  |            |                 |           |
|------------------|------------|-----------------|-----------|
| Carbohydrates    | 0.5%       | Protein         | 0.5%      |
| Lipids           | 0.1%       | Polyphenols     | 0.25%     |
| Nitrogen (N)     | 0.5%       | Phosphorous (p) | 0.68%     |
| Potassium (K)    | 2%         | Calcium         | 0.11%     |
| Magnesium        | 0.05%      | Sodium          | 0.13%     |
| Vitamin B12..... | 4.88 µg/kg | Iron            | 356.0ppm  |
| Zinc             | 15.87ppm   | Copper          | 17.62ppm  |
| Manganese        | 16.12ppm   | Selenium.....   | 0.44mg/kg |
| PH               | 3-4        |                 |           |

Plant based precursors; Cytokinin, Auxin & Gibberellin.
